

**Western Washington Medical Group  
Department of Family & Pediatric Medicine  
4301 Hoyt Ave  
Everett, WA 98203**

**Agreement for payment of Non Covered Services  
Annual Exams / Well Child Checks**

- Your insurance may not pay for an annual exam. Some payers do not cover preventative care and of those that do, coverage varies. Our physicians do not base their care on what a plan pays, but what constitutes good medical care.
- *If an abnormality/ies is encountered or a preexisting problem is addressed in the process of performing this preventative evaluation and if the problem/abnormality is significant enough to require additional work to perform the key components of a problem oriented E/M (Evaluate and Manage code) service, then the appropriate code will be reported with the preventative code to your insurance company.*
- The office will not code an exam different in order to get payment. Please do not ask us to disguise an exam as a problem visit in order to ensure reimbursement. This is considered Insurance Fraud.
- This office does not file insurance for the actual processing of the Pap Smears, cultures and blood tests, only the actual collection process. These are all sent to outside labs and will be billed separately.

You agree that you want this visit coded as preventive and it will be billed as such.  
If your insurance denies payment because you do not have this benefit you will be responsible for the bill.
