

Family Medicine Physician (FT)

Location: [Everett](#)

Job Description:

Everett Family Medicine is seeking a full-time, team driven Family Medicine physician to join our clinic.

We have a physician of over 13 years retiring, and we want to fill the position with a provider who is passionate about patient care and enjoys working in a team environment.

Everett Family Medicine is part of Western Washington Medical Group (WWMG), which is an independent, provider owned and governed multispecialty medical group, consisting of roughly 100 providers. We have lab services with draw sites at our Family Practice locations, and a top-quality imaging center with CT, MRI, and X-ray. Being physician-owned and governed allows provider-driven patient care, flexibility, and autonomy. Leadership opportunities are available for motivated physicians.

We are located 30 miles North of Seattle, in Everett Washington. Everett, is located on the Puget Sound, with quick access to the Cascades and Olympic Mountains to the east and west. The greater Seattle area is known for excellent arts and entertainment, a robust economy, and the natural beauty of the Pacific Northwest.

Board Certified /Board Eligible in Family Medicine

Washington State Medical License
