Clinical Neuropsychologist

Full-time position available for a clinical neuropsychologist to largely see patients aged 16 and older. Referrals predominately come from neurology although primary care and other subspecialties will refer to a lesser degree. Competitive pay offered.

JOB QUALIFICATIONS and EXPERIENCE REQUIREMENTS:

- Ph.D. or PsyD. in Clinical Psychology from an APA-accredited program
- Completion of a one-year APA-accredited internship in neuropsychology
- Completion of a two-year post-doctoral fellowship in neuropsychology

Individuals who excel in our organization typically value independence, are self-starters, and enjoy seeing a wide variety of patient presentations. Applicants must be licensed or license-eligible in the State of Washington.

A cover letter is required and should include any prior private practice experience, areas of specialty, and preferred patient population or area of interest. Please send resume and cover letter to:
