- Understand and follow exam protocols as established by the radiologists.
- Exhibit proper equipment setup and patient preparation for X-Ray exams.
- Provided PACS image management and associated administrative tasks as needed

Patient Care:

- Demonstrate high-quality patient care.
- Observe universal precautions.
- Use sterile technique.
- Uphold medical ethics and maintain staff and patient confidentiality.

Customer Service:

- Provide superior service that meets/exceeds expectations.
- Ability to have proper interactions with medical staff, patients, and visitors.
- Remain calm and professional in stressful situations.

Teamwork:

- Demonstrate a genuine effort to work cooperatively with others as part of a group to best serve our patients and providers.
- Contribute as a productive member of the clinical team.
- Demonstrate an ability to receive constructive feedback.

Initiative:

- Self-motivated to suggest workflow improvements, exceed expectations, and perform tasks without being requested.
- Utilize good time management skills.
- Assist in maintaining a neat department and work area.
- Keep knowledge and technical skills current by seeking out opportunities for self-learning and ongoing professional development.

Flexibility:

- Demonstrate an ability to adapt and work effectively with a variety of situations, individuals, or groups.
- Be receptive to new ideas.
- Ability to adapt to rapid changes in workload and able to effectively increase productivity and efficiency.

Qualifications/ Education Background:

- Graduate of an accredited Diagnostic Imaging training program
- ARRT Certification required
- Valid CPR card - Basic Life Support (BLS) for Healthcare Providers
- EPIC experience preferred
- You must be able to provide proof of legal authorization to work in the United States
