

Dear MFM patient:

After almost 35 years of medical care here in Marysville, it's happened – I'm hanging up my stethoscope! It has been a privilege caring for you all these years. As one of my last official acts, I am excited to introduce not one, but two new providers joining Marysville Family Medicine.

Dr. Ashley Rose Snyder will be starting in early February, as my replacement, to care for my patients. She has been part of Lynden Family Medicine for over 2 years. She received her B.S. in Biology at Pepperdine University and her medical degree from Pacific Northwest University, College of Osteopathic Medicine in Yakima. She completed her Family Medicine residency at the Williamsport Regional Medical Center in Pennsylvania. She is skilled in the full range of Family Medicine, including Obstetrics. She is moving here to be closer to family in the Marysville-Everett area and she looks forward to establishing long term relationships with her patients.

Christi Emmons, MSN, ARNP, FNP-C will be joining us in January and her desire is also to establish long term relationships with her patients. She received her Bachelor's degree in Nursing in 1995 from Seattle Pacific University and worked in nursing at Swedish hospital. She returned to school to pursue her Master's in Nursing, graduating from Gonzaga in 2018, as a Family Nurse Practitioner. Christi looks forward to being a part of the Marysville Family Medicine team.

During their interviews here at MFM, we were all impressed by their warm and compassionate personalities. We believe both of them will be a great addition to our team of providers and continue the quality care that you have come to expect at Marysville Family Medicine.

Sincerely,

Mark C. Holland, MD on behalf of Marysville Family Medicine
