Physician – Family Practice

Seeking a full-time Physician – Family Practice with or without Obstetrics

Western Washington Medical Group is seeking a motivated Family Practice Medical Doctor to join our Marysville Family Medicine location; a busy practice of four physicians, and three ARNPs. No hospital or OB duty required. The ideal candidate will want to join our salaried-to-ownership track; the standard timeline is two years to shareholdership.

Our busy clinic has deep local roots, with a history of serving the community since 1947. We have had a long history of a shared mission-driven vision. Our doctors have taken time away for extended sabbaticals to serve the underserved around the world, while maintaining a personalized, quality focus in our home community.

Western Washington Medical Group is an independent, provider-owned multi-specialty group with a vision to provide personalized, collaborative, high quality care. We are board-certified/board-eligible providers in most specialty areas of medicine as well as primary care.

We offer a pleasant environment, working with great staff. We are based in the northwest corner of Washington State, 30 minutes from Seattle, nestled between scenic Puget Sound and the rugged, snow-capped peaks of the Cascade Mountains. Snohomish County, and Marysville in particular, is one of the fastest growing regions of the country. This area of the Pacific Northwest is particularly attractive for raising a family, offering an accessible, pristine outdoors environment, excellent school systems and a wide variety of cultural activities. Professionally, WWMG is a collegial group of specialists and primary care providers that supports physician interests.

We offer a competitive salary, excellent benefits, and the ability to work with a great primary care team within a very collaborative environment of specialty providers.
