Need care today?

Research shows that the average cost of an ER visit in the U.S. is over \$1000.

When you need same-day care for illnesses and injuries, WWMG offers accessible and more affordable healthcare options - including telehealth and same-day appointments at several of our locations - where you'll be treated by a licensed provider.

In addition, we partner with reputable health organizations such as Dispatch Health to offer you alternatives to going to the ER.

Medical Group

About WWMG

Western Washington Medical Group is a team of over 100 healthcare providers in 20+ specialty areas.

Our locally owned primary and specialty healthcare clinics serve patients and their families from Bothell to Bellingham.

Our Mission

To provide all our clinicians the freedom to practice medicine with compassion, and in the best interest of our patients and community. We are committed to providing state-of-the-art, evidence-based healthcare that is both cost-effective and personalized for our patients.
