Therapists - specializing in treatment of children

Part- and full-time positions are available for therapists specializing in treatment of children with a broad range of clinical presentations in a supportive and flexible multi-disciplinary work environment. Competitive pay offered.

Individuals who excel in our organization typically value independence, are self-starters, and enjoy seeing a wide variety of patient presentations. Applicants must be licensed or license-eligible in the State of Washington. Job qualifications include Master's Degree or Doctorate in psychology or related field.

A cover letter is required and should include any prior private practice experience, areas of specialty, and preferred patient population or area of interest. Please send resume and cover letter to:
