

## Western Washington Medical Group

**Position:** Ultrasound Technologist / Sonographer

**Care Center:** Imaging Center

**Location:** Everett

The Western Washington Medical Group Imaging Center is seeking a full-time Ultrasound Technologist to join our team. We are conveniently located just off I-5 at 3822 Colby Ave, Everett, WA 98201.

Our staff not only enjoys full benefits and professional growth opportunities, but also an environment noted for diversity, community involvement, intellectual excitement, and collaboration.

We're interested in learning more about you and appreciate your taking the time to apply online. We are committed to employing a diverse workforce. *We welcome job applications from qualified individuals without regard to race, color, creed, religion, ancestry, national origin, age, sex, pregnancy, marital status, physical or mental disability, or any other protected characteristic. Minorities, women, disabled persons, and veterans are encouraged to apply.*

### **Job Summary:**

Ideal candidate is comfortable working in a busy center, performing exams in accordance with physicians' orders, adhering to safety standards and providing excellent patient-focused care.

You will prepare the ultrasound rooms and diagnostic equipment to perform high-quality testing, work collaboratively with the team, and follow established protocols. The technologist will be expected to uphold medical ethics and maintain staff and patient confidentiality.

Schedule is Monday through Friday with no weekends and no on-call.

### **Essential Functions:**

- **Diagnostic Testing:**
  - Demonstrate ability to obtain high-quality diagnostic ultrasound images utilizing knowledge of technical factors, transducer selection, positioning techniques, anatomy, physiology, and associated clinical pathology.
  - Understand and follow exam protocols as established by the radiologists.
  - Exhibit proper equipment setup and patient preparation for ultrasound exams.
  - Identify and utilize age-specific imaging protocols.
- **Patient Care:**
  - Demonstrate high-quality patient care.
  - Observe universal precautions.
  - Use sterile technique.
  - Uphold medical ethics and maintain staff and patient confidentiality.

- Customer Service:
  - Provide superior service that meets/exceeds expectations.
  - Ability to have proper interactions with medical staff, patients, and visitors.
  - Remain calm and professional in stressful situations.
- Team Work
  - Demonstrate a genuine effort to work cooperatively with others as part of a group to best serve our patients and providers.
  - Contribute as a productive member of the clinical team.
  - Demonstrate an ability to receive constructive feedback.
- Initiative
  - Self-motivated to suggest workflow improvements, exceed expectations, and perform tasks without being requested.
  - Utilize good time management skills.
  - Assist in maintaining a neat department and work area.
  - Keep knowledge and technical skills current by seeking out opportunities for self-learning and ongoing professional development.
- Flexibility
  - Demonstrate an ability to adapt and work effectively with a variety of situations, individuals, or groups.
  - Be receptive to new ideas.
  - Ability to adapt to rapid changes in workload and able to effectively increase productivity and efficiency.

**Qualifications:**

Graduate of an accredited Ultrasound training program.

Registered Diagnostic Medical Sonographer in Abdomen and OB/GYN required.

Registered Vascular Sonographer preferred.

Valid CPR card - Basic Life Support (BLS) for Healthcare Providers

**Experience:**

Minimum of 2 years of experience as a sonographer preferred.
