Options for Same-Day Medical Treatment

Research shows that the average cost of an ER visit in the U.S. is over \$1000.

When you need same-day care for illnesses and injuries, WWMG offers accessible and more affordable

healthcare options - including telehealth and walk-in clinics at several of our locations - where you'll be treated by a licensed provider.

In addition, we partner with reputable health organizations such as Dispatch Health to offer you alternatives to going to the ER.
